#### Agenda

# Grapevine Historic Preservation Commission City Hall 2<sup>nd</sup> Floor Council Chambers 200 South Main Street Grapevine, Texas 76051 Wednesday, June 22, 2022 6:00 pm

#### Welcome

1. Call to Order

#### 2. Citizen Comments

Any person who is not scheduled on the agenda may address the Historic Preservation Commission under Citizen Comments or on any other agenda item by completing a Citizen Appearance Request form with staff. A member of the public may address the Historic Preservation Commission regarding an item on the agenda either before or during the Commission's consideration of the item, upon being recognized by the Chairman or upon the consent of the Commission. In accordance with the Texas Open Meetings Act, the Commission is restricted in discussing or taking action during Citizen Comments.

#### 3. Work Session

A. Approved Certificates of Appropriateness as follows: #CA22-25 for property located at 848 East Texas Street; #CA22-27 for property located at 840 East Texas Street; #CA22-30 for property located at 232 Austin Street.

#### 4. Public Hearing

- A. Commission to conduct a public hearing relative to an application for a Certificate of Appropriateness #HL22-02 for property located at 216 East Northwest Highway, legally described as Leonard, Archibald F Survey, Abs 946 Tract 49F, Abst 946 Trs 49F 7 49H2 and take any necessary action.
- B. Commission to conduct a public hearing relative to an application for a Certificate of Appropriateness #CA22-23 for property located at 216 East Northwest Highway, legally described as Leonard, Archibald F Survey, Abs 946 Tract 49F, Abst 946 Trs 49F 7 49H2 and take any necessary action.

#### 5. Minutes

A. Commission to consider the minutes of the May 25, 2022 rescheduled Regular Meeting.

#### 6. Adjournment

If you plan to attend this public meeting and have a disability requiring special arrangements at the meeting, please contact the Department of Historic Preservation at 817-410-3185 at least 24 hours in advance. Reasonable accommodations will be made to assist your needs.

The next meeting of the Grapevine Historic Preservation Commission will be held at 6:00 pm on July 27, 2022 in the 2<sup>nd</sup> Floor Council Chambers, Grapevine City Hall, 200 South Main Street, Grapevine, Texas 76051.

In accordance with Texas Government Code, Chapter 551.001 et seq acts of the 1993 Texas Legislature, the Grapevine Historic Preservation Commission agenda was prepared and posted on the 17th day of June 2022 at 5:00 p.m.

**Director of Planning Services** 

HISTORIC PRESERVATION COMMISSION MEMO TO:

DAVID KLEMPIN, HISTORIC PRESERVATION OFFICER WDILL DING OFFICER FROM:

DON DIXSON, BUILDING OFFICIAL

ERICA MAROHNIC, DIRECTOR OF PLANNING SERVICES YM

WEDNESDAY, JUNE 22, 2022 MEETING DATE:

HISTORIC LANDMARK OVERLAY #HL22-02 SUBJECT:

1954 GASOLINE/SERVICE STATION BUILDING

216 EAST NORTHWEST HIGHWAY

GRAPEVINE, TEXAS 76051

PROFESSIONAL FUELING SERVICES, OWNER

LEMOINE WRIGHT. APPLICANT

#### **RECOMMENDATION:**

Staff recommends the Historic Preservation Commission approve the proposed Historic Landmark Subdistrict overlay to the Grapevine Historic Preservation Ordinance 91-73 (Appendix G - Grapevine Code of Ordinances), as amended for following property addressed as:

216 East Northwest Highway, legally described as LEONARD, ARCHIBALD F SURVEY Abstract 946, Tract 49F ABST 946 TRS 49F 7 49H2,, City of Grapevine.

#### BACKGROUND:

On June 2, 2022, Lemoine Wright of Wright Construction Company, submitted an application for Historic Landmark Overlay #HL22-02 for property owned by Rodney Hetzel of Professional Fueling Services and located at 216 East Northwest Highway, City of Grapevine. The property contains a vacant gasoline/service station building that is currently in disrepair. The property is under contract to be purchased from the owner by Lemoine Wright for redevelopment.

The gasoline/service station building was built in 1954 by Frank Thweatt who operated the station for a number of years. It was purchased by Professional Fueling Service and later utilized as a used car lot for many years. The Thweatt station building features concrete block construction with decorative face brick on the exterior. A unique feature, a large pole with sign was positioned at the corner of the original canopy that has been removed.

The applicant requests to demolish the Thweatt gasoline/service station building and to redevelop the property for retail use with new buildings to be constructed reflecting the architectural style of 1920s Grapevine commercial buildings.

Staff recommends approval of the Historic Overlay #HL22-02 to record the history of the property and to allow the Historic Preservation Commission to have input in the future development of the property. A set of the proposed Design Guidelines for the property are attached.

The building was built in 1954 as a gasoline/service station by Frank Thweat. It was later purchased by Rodney Hetzel, Professional Fueling Services. The property was later utilized as a used car lot for many years.

In the 1950s a functional esthetic began to prevail in construction of gas stations across the country. This esthetic emphasized clean lines modern materials. The Thweat station feature concrete block construction with decorative face brick on the exterior. The flat pitched roof features large overhang with projecting concrete bracket providing weather protection for the service bays and restroom entrances. The office and restroom section has a lower roof height than the adjacent automotive service bays. A unique feature, a large pole with sign was positioned at the corner of the original canopy that has been removed. On the east and west elevations of the building ornamental brick openings added a distinctive custom detail (see photos).

The applicant requests to demolish the gasoline/service station building and to redevelop the property for retail use with new buildings to be constructed reflecting the architectural style of 1920s Grapevine commercial buildings.

#### Historical Marker

The Grapevine Historic Preservation Commission and the Grapevine Historical Society have a cooperative marker program for properties that are officially (individually or located within) designated Historic Landmark Sub-districts. Please indicate if you are interested in obtaining one or both markers for your property. There is no fee for either of the markers, however, the Grapevine Historical Society will only fund two (2) of the medallion and text plaque (second option), per year, on a first come, first serve basis.

#### Check One:

- X Yes, I am interested in obtaining a bronze Historic Landmark Plaque for my property from the Historic Preservation Commission. I understand there is no fee for this plaque.
- O No, I am not interested in obtaining a marker for my property.
- Yes, I am interested in obtaining a bronze Historic Marker (medallion and text plaque) for my property from the Grapevine Historical Society.

#### Below for office use only

The Keeling House has been designated a Historic Landmark by the City of Grapevine Historic Preservation Commission, 1998

 Historic Preservation Commission's Historic Landmark Plaque. The Keeling House is located in the College Street Historic District, designated by the Grapevine Historic Preservation Commission. 1998

 Historic Preservation Commission's Historic District Plaque.

THE ED AND GRADY KEELING HOUSE
This 1912 house of late Victorian design with
early, Arts and Crafts elements was the first
home of William Edward and Grady Wood
Keeling. The house retains much of its
original construction and architectural
character. Its unique design features a porch
with Tuscan columns that wraps around the
front bedroom, with the entrance at the end
of the porch. Ed's father, J.E. Keeling
purchased The Grapevine Sun in 1897. The
Keeling family owned and published The
Grapevine Sun until 1976, spanning three
generations.

Site Plan of building

#### SITE

Retain the historic relationships between buildings, landscaping features and open space. Avoid rearranging the site by moving or removing buildings and site features, such as walks, drives and fences, that help define the residence's historic value.

#### **SETBACKS**

Building setbacks should be consistent with adjacent buildings or with the style of the building. Setbacks are an important ingredient in creating an attractive streetscape. Buildings should be set back to a line that is consistent with their neighbors and land use. For example, a residential setback should retain the setback of adjacent and nearby structures, with landscaping along the street right-of-way.

Residential buildings with a commercial use in residential areas should be set back in a manner consistent with setbacks of neighboring or similar residential structures.

Maintain building orientation pattern, with the front facade facing the street. Maintain spacing patterns between buildings.

#### **DRIVEWAYS, PARKING LOTS AND VACANT SITES**

Driveways should be located perpendicular to the street; no circular drives shall be allowed (unless proven with historic documentation) in front or corner side yard, so that the character of the landscaped yard can be reinforced.

New parking lots for commercial uses should not be located adjacent to sidewalks in the district.

Off-street parking lots should not be allowed to interrupt the continuity of landscaped front or corner side yards. This is important to both the preservation of historic character, and to the strengthening of the residential district.

Screen existing parking lots from streets and pedestrian areas in the Historic District. Existing parking lots located adjacent to streets and sidewalks may be screened to the height of car hoods. This will provide a certain level of continuity of the building façade line; it will screen unsightly views; and it will provide a level of security by allowing views to and from the sidewalk.

#### **FENCES**

Historically, fences around historic houses defined yards and the boundary around property and gardens. Wood picket fences, wood rail fences and barbed wire or decorative wire fences were the common fence types in Grapevine. Traditionally, picket fences surrounded the front of the house while rail and wire fences surrounded the agricultural portions of the property. Maintain historic fences.

New fences. Simple wood picket fences, wood and wire and wrought iron fences are appropriate. Avoid chain-link fences, privacy fences and concrete block fences for the street sides of property. Wood privacy fences may be allowed when installed in the rear yard and behind the front façade of a property. Utilitarian/privacy fences should not be installed in front of a historic building or beyond the

line of the front façade of a historic building.

Replacing fences. If replacement is required due to deterioration, remove only those portions of historic fences that are damaged beyond repair and replace in-kind, matching the original in material, design and placement. If replacement is necessary for non-historic fences, or new fences are proposed, locate and design the fence in such a way that will compliment the historic boundary of the property without concealing the historic character of the property.

#### SERVICE AND MECHANICAL AREAS

Service and mechanical areas and equipment should be screened from the street and other pedestrian areas.

All garbage and equipment storage areas should be screened from the street.

Mechanical equipment, including satellite dishes, shall not be located in front or corner side yards or should be set back from the edges of roofs, and screened so that they are not visible to pedestrians and do not detract from the historic character of buildings.

#### **BUILDING FABRIC**

#### **PRESERVATION**

Preserve, stabilize, and restore original building form, ornament and materials.

Any missing or severely deteriorated elements may be replaced with replicas of the original. Ensure that roof, window, porch and cornice treatments are preserved, or when preservation is not possible duplicate the original building element.

When rehabilitating, remove non-historic alterations.

Often, "modern" renovations conceal the original facade details. If not, the original style may be recreated through the use of historic photographs.

Where replication of original elements is not possible, a new design consistent with the original style of the building may be used.

Reconstruction of building elements should reflect the size, scale, material and level of detail of the original design.

Preserve older renovations that have achieved historic significance. Older structures or additions may have, at some time, been renovated with such care and skill that the renovation itself is worthy of preservation. Usually, such renovations may date from before 1940.

#### **EXTERIOR FINISHES**

Original wood finishes should be maintained and painted or, when necessary, replaced in kind. Modern synthetic siding materials such as vinyl or metal bear little resemblance to historic siding materials. The application of such modern synthetic materials often involves the removal of original decorative elements such as cornice, corner boards, brackets, window and door trim, etc. New synthetic siding shall not be installed; removal of existing such materials is not required, but strongly

encouraged, to restore historic patina, finish and appearance.

Original asbestos siding should be maintained and painted, or when necessary, replaced with synthetic siding to match the existing asbestos siding. The removal of asbestos siding over existing wood siding is not required, but strongly encouraged, to restore historic patina, finish and appearance.

Original masonry surfaces should be maintained and not be painted, unless severe deterioration of the brick or stone can be shown to require painting. If the color or texture of replacement brick or stone cannot be matched with existing, painting may be an appropriate treatment.

Paint colors should be complimentary to each other and the overall character of the house. When possible, research the original paint color and finishes of the building's historic period; the right colors respect the historic building.

The Historic Preservation Commission shall adopt, as necessary, a paint palette(s) appropriate to the district's character, which may be proposed and approved through the Minor Exterior Alteration application process. Any colors proposed outside the adopted palette may be reviewed by the Commission in the regular Certificate of Appropriateness process.

#### **WINDOWS**

Original window framing and lites (panes of glass) configurations should be preserved and maintained or replaced in kind.

When replacement is necessary, do so within existing historic opening. Replacement of non-original windows should consider the use of historically appropriate wood windows. Use same sash size to avoid filling in or enlarging the original opening. Clear or very slightly tinted window glass may be used. No reflective or heavily tinted glass shall be used.

Should the owner wish to install security bars, they should be installed on the interior of windows and doors.

Storm windows. The use of interior storm windows is encouraged. Storm windows are available which can be installed on the interior of windows. This helps to preserve the exterior historic character of the building.

Should storm windows need to be installed on the exterior of the historic windows, storm windows constructed of wood and configured to match the historic sashes (i.e. one over one sashes) are recommended.

If metal storm windows are installed, paint to blend with surrounding elements.

#### **EMBELLISHMENTS**

#### **AWNINGS-CANOPIES**

New awnings and canopies should not be installed above windows or doors.

#### **EXTERIOR LIGHTING**

Lighting is an important element in residential areas. Fixtures should be consistent with the historic character of the house.

Appropriate incandescent light fixtures to the style of the district should be used.

Avoid exposed lighting of any kind unless part of a historic fixture.

#### **NEW BUILDING CONSTRUCTION**

#### **INFILL**

The Secretary of the Interior's guidelines for new buildings in historic districts encourage similarity of form and materials, but not actual replication. New construction proposals and the rehabilitation of non-historic buildings will be reviewed based on these Criteria. Judgement will be based on the compatibility of the design within the context of the property's adjacent and nearby historic buildings.

The design of new buildings should have key elements of the building's historic period of significance including massing, scale, fenestration and materials.

Infill buildings should not be absolute reproductions, and appear as clearly contemporary. Only when a previously demolished historic Grapevine building can be accurately replicated may a reproduction be considered.

Infill buildings between historic buildings should be similar in setback, roof form, cornice line and materials, to one of the adjacent buildings. Relate height of new building to the heights of adjacent structures. Avoid new buildings that tower over existing ones.

Horizontal wood siding (either novelty, tongue and groove, shiplap or equivalent) and brick are appropriate exterior building finishes for the historic house. Fake brick or stone or gravel aggregate materials shall never be used.

#### **ADDITIONS TO HISTORIC BUILDINGS**

Additions to historic buildings should replicate the style of the main building if possible; otherwise they should adhere to the general style with simplified details.

As a minimum, new additions should reflect the massing, roof shape, bay spacing, cornice lines and building materials of the primary structure.

All new wood or metal materials should have a painted finish except on some 20<sup>th</sup> century buildings where the use of unpainted aluminum or steel was part of the original design and should be maintained.

A new addition should, if at all possible, be located at the rear of the historic building. If this is not possible, the addition may be added to the side if it is recessed at least 18 inches from the historic building facade or a connection is used to separate old from new.

New vertical additions should be set back from primary facades so as not to be readily apparent from the facing street.

When reproducing elements that were originally part of a historic building they should be replicated when evidence of the actual detail has been documented by photographs, drawings, or remaining physical evidence. If no evidence exists, elements typical of the architectural style may be used. Historic photographs can provide information on the original elements of the building.

HISTORIC PRESERVATION COMMISSION MEMO TO:

DAVID KLEMPIN, HISTORIC PRESERVATION OFFICER WDL FROM:

DON DIXSON, BUILDING OFFICIAL

ERICA MAROHNIC, DIRECTOR OF PLANNING SERVICES

WEDNESDAY, JUNE 22, 2022 MEETING DATE:

CERTIFICATE OF APPROPRIATENESS #CA22-23 SUBJECT:

1954 THWEATT GASOLINE/SERVICE STATION BUILDING

**PROPERTY** 

216 EAST NORTHWEST HIGHWAY

GRAPEVINE, TEXAS 76051

PROFESSIONAL FUELING SERVICES, OWNER

LEMOINE WRIGHT, APPLICANT

#### **RECOMMENDATION:**

Staff recommends the Historic Preservation Commission approve with conditions the Certificate of Appropriateness #CA22-23 for the property located at 216 East Northwest Highway, legally described as Leonard, Archibald F Survey Abstract 946, Tract 49F ABST 946 TRS 49F 7 49H2, City of Grapevine to the Grapevine Historic Preservation Ordinance 91-73 (Appendix G – Grapevine Code of Ordinances), as amended for the following items:

- 1. Demolish the existing Thweatt gasoline/service station building constructed in 1954;
- 2. Construct two new retail buildings, following Design Guidelines established for the property,

with the condition Historic Overlay #HL22-02 is approved for the property; City Council approves re-platting of the property at 216 and 306 East Northwest Highway into one property: a site plan be obtained from the Planning & Zoning Department; and a permit be obtained from the Building Department.

#### **BACKGROUND:**

Certificate of appropriateness application #CA22-23 was submitted by applicant Lemoine Wright of Wright Construction Company on May 4, 2022 to demolish the existing one-story Thweatt gasoline/service station building built in 1954. Mr. Wright requests to demolish the building and to redevelop the property for retail use with new buildings to be constructed reflecting the architectural style of 1920s Grapevine commercial buildings.

A proposed site plan and elevations of the new buildings is attached with this memo. Mr. Wright's company also owns the vacant landmarked property next door at 306 East Northwest Highway. The plan would combine the 216 and 306 East Northwest Highway properties into one re-platted lot with two separate retail buildings.

Staff recommends approval of #CA22-23 to demolish the existing Thweatt gasoline/service station building and construction of two new retail buildings with the conditions Historic Overlay #HL is approved for the property; City Council approves re-platting of the property at

216 and 306 East Northwest Highway into one property; a site plan be obtained from the Planning & Zoning Department; and a permit be obtained from the Building Department.

#### STATE OF TEXAS COUNTY OF TARRANT CITY OF GRAPEVINE

The Historic Preservation Commission for the City of Grapevine, Texas met in a Public Hearing on Wednesday, May 25, 2022 at 6:00 p.m. in the Grapevine City Hall, 2nd floor Council Chambers located at 200 South Main Street, Grapevine Texas with the following members present:

Sean Shope Chairman Commissioner Jim Niewald Margaret Telford Commissioner Chuck Voelker Commissioner Ashlev Anderson Commissioner Eric Gilliland Commissioner Paula Wilbanks Commissioner Darren Temple Alternate Member City Council Liaison Paul Slechta

Monica Hotelling Planning & Zoning Commission Liaison

Constituting a quorum, with Commissioners Chuck Volker and Eric Gilliland being absent, and with the following City staff present:

Matthew C.G. Boyle

City Attorney

P.W. McCallum

Director of the Convention and Visitors Bureau

David Klempin

Historic Preservation Officer

Tara Brooks

City Secretary

#### **CALL TO ORDER**

Chairman Shope called the meeting to order at 6:00 p.m.

Chairman Shope led a moment of silence for the victims and families affected by this week's shooting in Uvalde.

#### CITIZEN COMMENTS

Any person who is not scheduled on the agenda may address the Historic Preservation Commission under Citizen Comments by completing a Citizen Appearance Request form. In accordance with the Texas Open Meetings Act, the Commission is restricted in discussing or taking action during Citizen Comments.

There was no one wishing to speak during Citizen Comments.

#### **WORK SESSION**

Approved Certificates of Appropriateness as follows: #CA22-24 for property located at 221 Austin Street.

#### **PUBLIC HEARING**

4A. Certificate of Appropriateness #CA22-09 for property located at 840 East Texas Street

Chairman Shope declared the Public Hearing open for #CA22-09 for the property located at 840 East Texas Street, legally described as Block 5, Lot 6, D.E. Box Addition, City of Grapevine, to the Grapevine Historic Preservation Ordinance No. 91-73 (Appendix G – Grapevine Code of Ordinances), as amended, for the following items:

- 1. Remove the five Historic Preservation Commission approved Marvin two-over-two, polycarbonate windows with proportions that match the original Steelcase windows;
- 2. Reinstall the five previously unapproved and not permitted Don Young one-overone aluminum windows on the front of the house.

Chairman Shope called on Historic Preservation Officer David Klempin to present the case.

#### **BACKGROUND:**

On February 25, 2022, James Gravatt submitted Certificate of Appropriateness #CA22-09 to remove the five Historic Preservation Commission approved two-over-two, polycarbonate windows with proportions that match the original Steelcase windows and to reinstall the five previously unapproved and not permitted one-over-one aluminum windows on the front of the house on the 1953 Mayor H. M. Cosnahan House in the D. E. Box Addition Historic District.

On November 6, 2020, #CA20-109 was submitted by owner James Gravatt to remove the original Steelcase single hung, awning style windows from the front and west ends of the historic Cosnahan House and to replace them with new Don Young bronze anodized aluminum windows. At the December meeting of the Grapevine Historic Preservation Commission, the Commission voted to table #CA20-109 to the January 27, 2021 meeting, to give the applicant time to develop an evaluation of the condition of the existing Steelcase windows. At the December 16, 2020 meeting, the applicant made a commitment to evaluate the condition of the existing Steelcase windows, unaware that his window installer had removed, and destroyed the Steelcase windows and had installed the Don Young windows earlier in the same day. The evaluation was not done.

The proposed removal would violate standards 2, 5 and 6, of the Secretary of Interior Standards which require the retaining of distinctive features and materials; and requiring the utilizing of repair, rather than replacement of original features. The Design Guidelines for the D. E. Box Historic District concur with these Standards.

As a cost alternative, Mr. Gravatt worked with his window installer who suggested a proposal to add aluminum bars to the nine aluminum windows. The aluminum bars could be glued on to the window glass of the aluminum windows to resemble the mullion bars of the two over two window configurations of the original Steelcase windows.

Mr. Gravatt would prefer to install the glued-on aluminum bars to the unapproved Don Young windows but if required by the Commission, would remove and install Marvin Metal Clad Wood windows.

#### RECOMMENDATION:

Staff recommends the Commission <u>deny</u> the request to remove the five Commission-approved Marvin poly-carbonite windows currently installed on the original portion of the house and replace them with the five Commission-unapproved Don Young one-over-one aluminum windows.

Applicant, Jay Gravatt, 840 East Texas Street, described the history of the windows. He stated that he does not believe the Commission should have the right to tell him what to do with his house.

City Attorney Matthew Boyle described the history of this property regarding the replacement of the windows and stated the property owner did not follow the process.

Commissioner Telford made a motion to close the public hearing; Commissioner Niewald seconded the motion prevailing in a vote of:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

The public hearing was closed.

Commissioner Temple made a motion to deny the request for Certificate of Appropriateness #CA22-09; Commissioner Telford seconded the motion prevailing in a vote of:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

## <u>Item 4B. Certificate of Appropriateness #CA22-14 for property located at 518 East Texas</u> <u>Street</u>

Chairman Shope declared the Public Hearing open for #CA22-14 for the property located at 518 East Texas Street, legally described as Block 106, Lot 5, College Heights Addition, Grapevine, Texas to the Grapevine Historic Preservation Ordinance No. 91-73 (Appendix G – Grapevine Code of Ordinances), as amended, for the following items:

- 1. To renovate the existing 1,478 square foot house, preserving the existing street view of the house;
- 2. To construct a new two-story 1,890 square foot addition to the rear of the house;
- 3. To construct a new 465 square foot detached two-car garage at the rear of the house;

with the conditions the Board of Zoning Adjustment approve the existing west side yard setback; and a building permit be obtained from the Building Department.

Chairman Shope called on Historic Preservation Officer Klempin to present the case.

#### BACKGROUND:

Certificate of Appropriateness application #CA22-14 was submitted on March 23, 2022 by the applicant John Finn of Finn Residential, LLC to renovate the existing house, preserving the existing streetscape view, to construct a new two-story addition to the rear of the house; to construct a new 465 square foot detached two-car garage with a connecting breezeway; and a covered patio.

The total living area of the existing 1,478 square foot house with the proposed 1,890 square foot addition totals 3,368 square feet. This is within the 3,400 maximum square feet established by the Preservation Ordinance. The balcony, patio, and porch total are not to be included in the maximum square feet calculation, per the Preservation Ordinance.

The property lot size is 7,000 square feet and the building coverage is 37.4% (maximum 40% lot coverage). The total of the 3,368 square feet living area and 465 square foot detached garage is 3,833 square feet (within the ordinance maximum of 4,100 square feet). The building height is 25 feet.

This property is not currently landmarked.

#### **RECOMMENDATION:**

Staff recommends the Commission approve #CA22-14 to renovate the existing 1,478 square foot house preserving the existing street view of the house; to construct a new

two-story 1,890 square foot addition to the rear of the house; to construct a new 465 square foot detached two-car garage at the rear of the house; with the conditions the Board of Zoning Adjustment approve the existing west side yard setback; and a building permit be obtained from the Building Department.

Applicant and builder John Finn was present to answer questions from the Commission. There were no questions from the Commission.

Historic Preservation Officer Klempin answered questions about this proposal.

Commissioner Telford made a motion to close the public hearing; Commissioner Anderson seconded the motion prevailing in a vote of:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

The public hearing was closed.

Commissioner Telford encouraged the homeowners to landmark the property.

Commissioner Anderson made a motion to approve Certificate of Appropriateness #CA22-14, with conditions; Commissioner Niewald seconded the motion prevailing in a vote of:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

## <u>Item 4C. Certificate of Appropriateness #CA22-15 for property located at 504 West College Street</u>

Chairman Shope declared the Public Hearing open for #CA22-15 for the property located at 504 West College Street, legally described as Block 5-7, Lot 5C, City of Grapevine to the Grapevine Historic Preservation Ordinance No. 91-73 (Appendix G – Grapevine Code of Ordinances), as amended, for the following items:

 Construct a new 700 square foot 2-car detached garage in the rear yard of the house with the condition a variance be granted to combine the 500 square foot garage and 200 square foot storage building allowed by the Preservation Ordinance; with the following conditions:

a building permit is obtained from the Building Department; and all exterior materials, windows, doors and door hardware, light fixtures and paint colors be approved under a separate Certificate of Appropriateness.

Chairman Shope called on Historic Preservation Officer Klempin to present the case.

#### BACKGROUND:

Certificate of Appropriateness application #CA22-15 was submitted by the applicant John Finn on March 23, 2022 to construct a new 700 square foot 2-car detached garage with attached storage. The Terrill Paine Fuller house is a contributing structure to the College Street Residential Historic District. It was originally built in 1865 and has an addition constructed in 2008.

The existing house, with the addition, is 3,400 square feet in size, which is the maximum square feet allowed by the 2013-23 Ordinance.

The Historic Preservation Officer, CVB Director and Building Official recommend a variance be granted to increase the garage size to 500 square feet, by using 200 square feet from the maximum of 200 square feet detached storage building allowed by the Ordinance. Total for the 3,400 house and 700 square foot garage with storage would be 4,100 square feet which is the maximum square footage allowed for all structures on the site per the Preservation Ordinance. The site is 21,300 square feet in size, and the building coverage is 18% (maximum coverage of 40%).

#### **RECOMMENDATION:**

Staff recommends the Commission approve #CA22-15 to construct a new 700 square foot 2-car detached garage in the rear yard of the house with the condition a variance be granted to combine the 500 square foot garage and 200 square foot storage building allowed by the Preservation Ordinance; with the conditions a building permit is obtained from the Building Department and all exterior materials, windows, doors and door hardware, light fixtures and paint colors be approved under a separate Certificate of appropriateness.

Applicant and builder John Finn was present to answer questions from the Commission.

Historic Preservation Officer Klempin answered questions about this proposal.

Commissioner Telford made a motion to close the public hearing; Commissioner Wilbanks seconded the motion prevailing in a vote of:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

The public hearing was closed.

Commissioner Temple made a motion to approved Certificate of Appropriateness #CA22-15, with conditions; Commissioner Telford seconded the motion prevailing in a vote of:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

#### Item 5A. Minutes

Commissioner Anderson made a motion to approve the minutes from the April 25, 2022 Regular Meeting as written; Commissioner Wilbanks seconded the motion which prevailed in the following vote:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

#### Item 6. Adjournment

Commissioner Telford made a motion to adjourn the meeting at 6:44 p.m.; Commissioner Voelker seconded the motion which prevailed in the following vote:

Ayes: 6 (Shope, Niewald, Telford, Anderson, Wilbanks and Temple)

Nays: 0

Meetings may be viewed at <a href="https://grapevinetexas.gov/1059/Meeting-Videos">https://grapevinetexas.gov/1059/Meeting-Videos</a>

Passed and approved by the historic preservation commission of the City of Grapevine, Texas, this the 22nd day of June, 2022.
